Campaign For Industrial Workers Is Being Pushed. Eighteenth New Cardinal Is a Spaniard-Testimonial to Jewish Woman-Whole Country Aroused on Religion

The general secretary of the Laymen's Missionary movement, J. Campbell White, has issued a moisage to the churches of the United States and Canara, calling attention to the fact that the movement was five years old on November 15 last. The secretary thinks that the past five years have witnessed the most extensive and inspiring increase of missionary interest during modern times. The greatest series of union meetings for Christian men ever held in North America has occurred during this period. Several hundred thousand men have been reached directly, and many more indirectly.

hundred thousand men have been reached directly, and many more indirectly. The movement has proved thinks the secretary, that intelligent enthusings for foreign missions is not a hindrance but a help to every other christian activity. With larger offerings for work abroad have come larger gifts for work at home. Thousands of men's missionary committees have been appointed as a result of its agistion, and all of these work for both home and foreign missions. The spirit of christian unity has had a phenomenal development to a degree supposed to be impossible five years ago. Fartigher standings of christian stewardship are coming to be recognized and adopted. That most expensive of all human effort, prayer, is being offered with multiplying frequency by laymen. The secretary states that financial gains to missions during the five years are the greatest ever made during a similar period by the churches of chriter nations. Churches of Canada lave increased from \$1,492,300 to \$12,216,000 annually in their combined home and foreign girts. Taking United States and Canada together the increase of foreign missions alone has been from \$8,950,000 to \$12,250,000 annually, or a gain of about 50 percent. In addition to this increase to current gifts, more than \$5,000,000 have been raised during the past two years in special equipment or endowment for foreign work.

The secretary says the movement extends to concernte with the missionary

work.

The secretary says the movement expects to cooperate with the missionary agencies of the churches until the work of world evangelization is actually accomplished. At present there are 20 regular paid secretaries of the movement and the number is steadily increasing. The movement is not a spasmodic or temporary sentiment, says the secretary, but the expression of a profound and determined purpose to rally and hold the men of the churches to the accomplishment of the greatest task ever committed to human agency.

EIGHTEENTH NEW CARDINAL IS CREDITED TO SPAIN.

The consistory announced for November 27, is the private one. The date The consistory announced for November 27, is the private one. The date of the public one, when all cardinals in Rome assemble, with many other clergy, is next Thursday, November 20, our Thanksgiving day. Already it is gnown that an eighteenth cardinal has been added to the first announced list of seventeen. He is Mgr. Henrique Almariz y Santos, archbishop of Seville. He was born at La Felies, in the diocease of Salamanca, Spain, on September 22, 1847, was made bishop of Palencia on January 18, 1893 and archbishop of Seville on April 18, 1909.

With the two new Spanish cardinals, there will be four resident in that country besides cardinal vives y Tuto a member of the Curia. It is said that the king of spain requested of the pope the prometion of the archbishop of Seville, but there was some hesitation at the vatican as to the wisdom of creating another Spanish cardinal. Hence the delay in the announcement.

of Jewish women of New York under her leadership.

The list of these achievements is a long one, and includes an advance in membership from 300 to 1,700, the founding of two great charities, one for wayward girls and one for sick girls out of employment, a remarkable home work for the blind, through which they earn money for support, the founding of an immigrant aid bureau, and the successful operations of several employment agencies for Jewish girls.

for the important position of major-domo.

Mgr. De Croy may be appointed master of chammer, He is one of the prelates who is of noble birth, and belongs to a princely ramily in Belgium. He has a right to the title of most sereme highness. He studied in Rome in the Academy of Noble Ecclesiastics and became one the pope's attendants. Desiring a more notive life, he pleased Plus X very much by requesting a position as priest at Mons Belgium.

It is said that the pope will seize the present opportunity to bring Mgr. De Croy back to Rome.

Two others are mentioned for master of chamber, Mgr. Gaecia Dominiont, of Milan, and Mgr. Glovanni Battista, blehop of Gueleblo. The nomination of Padre Mattiness! of Milan will take his place.

It is generally conceded that the promotion of Padre Mattiness! to this new and important position in Rome was not intended by the valtican or the Jesuits to give offence to cardinal Ferrara, who is said to have won hack the favor which he formerly enjoyed with Plus X. In view of the recent action taken by the archibishop of Milan in the case of Mattiness, the present decision of the pope arouses comment and conjecture.

Last Two Days

The district convention of the Christian churches in south, central New Mexico, and west Texas, will be held at the First Christian church here, beginning Thursday evening. The opening address will be delivered by Dr. W. E. Garrison, of the New Mexico and M. college, portraying the many phases of the work of the convention.

Rev. R. T. Hanks, of the Calvary Capture.

INTRODUCTION OF BIDDING will reduce the present decision of the pope arouses comment and conjecture.

INTRODUCTION OF BIDDING PRAYERS IS REVIVED.

In several large churches in eastern cities, particularly Episcopal ones although not wholly limited to that communion, the seventeenth century plan of bidding prayers is being revived. These prayers are not put into prayer services on week nights, but are employed oftenest on great occasions, and sometimes they are now forming part of regular Sunday morning worship. Hidding prayers had their origin at a period when by no means all occupants of pews were able to rend.

Bidding prayers are intercessory, and often extremely personal and specific. In the manner now adopted the leader, bishop, or pastor, does the bidding from the pulpit. The act beems to be pastoral and borintory rather than sacramentarian. The people stand and after each command to pray, silence follows during which it is expected that all present offer mental petitions as hidden to do. The command begins in each case with. Tolid you," etc., and then follows mention of cause to be prayed for.

WHOLE COUNTRY AROUSED

ON RELIGIOUS MATTERS.

In number of laymen who attend its conventions, and of those in cities where conventions had not been planned who enter upon work of their own accord, the Men and Religious campaign thus far exceeds the most hopeful expectations of its projectors. From every part of the United States and Canada reports come of campaigns planned, committees of laymen appointed, and in more than 100 cities executive secretaries provided to give all of their time.

Conventions thus far held have exceeded in local interest anything yet planned for a religious pature. The features that have attracted widest attention are the social service, the boy welfare and evangelist. In the first named they survey is proving the striking feature, for it presents to local church authorities conditions of saloons, working hours of laboring men, health precautions and other important data which often they never dreamed of. The surveys are put into permanent form, and after conventions are over are left with local workers for use and guidance.

Not far away, and every one who strive: To do his best to live the truth, reflects It unto others, clear and undefiled. Each one of us can enter in that door That opens to God's Kingdom-servitude-If we but ask admission earnestly, But we must work and build our faith upon The great foundation-stone of trust; and when We see the structure finished, we shall know That it will be a blessed help to all. Thus we will be, like little children, sweet And trustful, knowing that we're safe from harm.

HOLD CONSIDERED PROBABLE.

It is reported that Mgr. Bisicti, majordomo of the pope, now to become a cardinal, went to Pius X and begged him to delay conferring this honor upon him. The opinion is that Mgr. Bisicti enjoys his present office and prefers it to the duties of cardinal. The pope, however, was fot will be dawning, and ere long other actions will join the federation, and the darkness of, warfare will have passed.—Rev. Biles C. Hanson, at Congregationally consistent of the duties of cardinal. The pope, however, was fot will go make any change. There is a rumor that his hollness intends to give his majordome a new field of activity.

Mgr. Bisicti occupied two positions in the pontifical court. He was not only majordome, but master of the hamber. Apparently, it is the intention of Pius X to separate these offices now. Mgr. Micciabelli, for many years pro-prefect of the Sacred palaces, who is thoroughly familiar with court usages is mentioned as a probable choice for the important position of majordome.

What we should long for, pray for and work for, and confidently expect above all else, is a mighty outpouring of the holy spirit upon the enges, is mentioned as a probable choice for the important position of majordome.

El Pasoans Form a Branch of the Euterpean Fraternity

A chapter of the Enterpean fraternity, an organization for correlative art cultore, has been organized in El Paso by the founder of the fraternity, Wilbur M. Derthick, of Chicago.

M. Derthick, of Chicago.

The programs of the Euterpean society are based upon the principles of Correlation. At each meeting three great masters—a painter, a poet and a musician—who were actuated by a common ideal and whose personalities and art characteristics are most similar, are presented together as subjects of illustration. The programs are composed of stereopticon slides of the paintings of the artist being studied, poems rendered from the works of the poet of the same period, and vocal and instrumental compositions from the music master. Each picture and musical work presented will be the submusic master. Each picture and musical work presented will be the subject of a literary interpretation to reveal its special beauties and make its
meaning definite and real to every
member of the fraternity, regardless of
technical knowledge of any kind. A
brief character sketch of each master's personality and art ideals will be given.

London, 2th Aug., 1205.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I hought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., 86 Clerkenwell Road, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adaptable for the purpose for which they are intended. (Signed)
